No. 1990—Eighth Year. BUENOS AYRES, TUESDAY, SEPTEMBER 29, 1868. Circulation 3000

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

"LA ESTRELLA"
ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE, AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS

[Sanctioned by Decree of National Government, October 24th, 1865. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.

INSPECTOR
Guillermo Solmidber.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no othe obligation than the payment of the stipulater Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes

Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 118, PIEDAD; or at any of the Country Agents.

No. of Policies,.. 2,644 | Securities, $f.838,920·41

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

SPECIAL TELEGRAM FOR "STANDARD."

Montevideo, Sept. 29, 7P.M.

The Pacific arived this morning, and brings news confirming the diasters of the late earthquake in Peru and Chile. Grea disasters in shipping. Shock scarcely felt in Callao and Lima.

The victims are said to amount to about to 100,000 persons!

More animation to-day on Bolsa.

Exchange done at 50½ to 50⅝ gold, and 42¼ to 42⅜ paper. On France, 4.42 to 4.48 paper, and 5.27 to 5.28 geld.

Weather fine.

THE FRENCH MAILS.

The Queen arrived at her destination in Switzerland on the 7th, and is expected to remain at Lucerne about a month. Although it has been frequently stated that her Majesty's visit is to be private, the British public is kept informed of her Majesty's daily movements. She has taken walks in the neighbourhood of Lucerne and made excursions on the lake; Lord Stanley has arrived and established himself as minister in attendance, and the Queen of Holland is expected on a visit. The continental papers seem unwilling to believe that the Queen's visit is made merely for the sake of health. They insist upon attributing political significance to it, and one journal even states that it has already served the cause of peace. A letter from Berlin says that the Queen and Lord Stanly are expected to have long and important conferences with the various Sovereigns of Germany.

DREADFUL ACCIDENT ON THE HOLYHEAD LINE

The most extraordinary and fatal accident ever known on an English rail way occurred yesterday on the Chester and Holyhead line near Llanddulas, about a mile and a half from Abergele.

The Irish Limited Mail, leaving London at 7 15, passed Abergele station in safety about 1 o'clock. A goods train had passed half an hour before.

Beyond Llanddulas a portion of the goods train to Holyhead seems to have become detached, and ran back down the incline, meeting the Mail Train, going at about 40 miles an hour. There is curve near. The driver of the mail train, Arthur Thompson, of Stafford, seeing that a collision was inevitable, jumped off and escaped slightly hurt. The stoker, Joseph Holmes, of Stafford, remained.

At the back of the goods train was a waggon laden with petroleum oil, and when the collision occurred the petroleum exploded.

The engine, tender, and three first-class carriages were smashed up together and burnt with petroleum.

Twenty-three passengers for Ireland were all burnt so badly that none could be recognized. A watch was found, with an inscription showing it belonged to Lord Farnham, who was accompanied, it is supposed, by two daughters.

Locomotives, cranes, and men were sent fron Chester and Crewe, and the line was cleared about half-past 5 o'clock. The wires having been broken prevented earlier menssages for assistance.

Twenty-three bodies have been brought to Prestatyn Station, and placed in coffins and taken to Abergele Church. The passsengers hurt are distributed about Prestatyn, Abergele, and places near.

Their names cannot be ascertained at this late hour. It is feared that none of the bodies will be reconizable by friends, they are so fearfully charred. Four doctors from Abergele and Rhyl are waiting upon the sufferers by direction of the Railway Company. The body of the stoker was picked up under the broken engine.

Thompson, the driver, is at a cottage near the cene of the accident and able to give some account of what he saw.

The inquest will probably be opened to-day, and be immediately adjourned.

The Duchess of Abercorn and family, Lord Hamilton, Lord Castlerosse and family, and Mr. and Lad Selwin-Ibbetson were passengers by the train, but all escaped unhurt.

The Duchess of Abercorn and Lord Hamilton have proceeded to Ireland.

Dublin, Aug. 21.

The Irish mail steamer from Holyhead, due at Kingstown at 6 p.m., did not arrive until 10.50, having been detained in consequence of an appalling accident on the railway at Llanddulas, near Abergele. A goods train laden with paraffine oil broke down, and the Limited Mail Train came into collision with it; the oil ignited, and three or four of the carriages, with the sorting van, were destroyed. Some nine of the persons, including Lord Farnham, and, it is feared, Lady Farnham, were burnt to a cinder. Lady Abercorn and party were not much hurt. Smith, the chief guard, is dead. The fireman is missing. The engine-driver and one of the guards are progressing favourably. The mails were saved.

LATEST PARTICULARS.

Abergele, Saturday,

The relatives of Sir Nicholas Chinnery and Lady and Judge Berwick are here. The Hon. Somerset Maxwell is also here, and finds it impossible to identity Lord and Lady Farnham Thirty bodies have been discovered.

A telegram from Abergele states that the following additional passengers have been identified—Mr. and Mrs. Aylmer, their son and cousin, of Workworth-hall, Durham; the Miss Leas, two, of Stourport; Mrs. and Miss Adkins, Kidderminster: Mr. W F. Lund, Mr. W. P. Parkinson, and Mr. C. Parkinson, all of Blackburn.

It is believed that the whole of Lord Farnham's retinue of servants, [four in number] are among the dead. None of them have been seen since the accident, and metal buttons bearing the crest, a stag's head, known to have belonged to the livery of the male-servants, have been found among the ashes. In some cases the gold and silver which had been in the pockets of some of the victims was seen to be in a molten state,

The list of the missing persons are as follows:—Lord Farnham; Lady Farnham; Miss Stafford, her Ladyship's companion; Mary Anne Kellet her ladyship's maid, Mr. Outen, his lordship's valet; Chas. Buckingham footman; Mr. Aylmer, of Walworth-castle, Durham; Mrs. Aylmer; Mr, Aylmer, jun.; a young gentleman, cousin of Mr. Aylmer, jun.; the Miss Sincoxlea, (two) of Astlee-hall, near Stourport; Mr. Atkins, of Kidderminester; Mr. Atkins, jun., of Kidderminster; W. T. Lund; W. B. Markinson, Mr. Christopher Markinson; the Rev. Sir Nicholas Chinnery, Lady Chinnery, her ladyship's maid, Mr. Scoval, Miss Scoval, Mr. Berwick; an Irish judge in bankruptcy, Mr. Berwick's sister, a little girl travelling with Mr. Berwick, Capt. Edwards, of Foxley-park, Mr. Edwards, son of the above, Mr. W. Owen, organist, of Dublin—total, 28.

The 'Times' in its second edition of Saturday, publishes the following telegram:—"The dead cannot be identified. Nothing is left of them but here and there charred bones, the largest pieces scarcely bigger than a man's hand. It is thought that the sufferers will be found to number twenty-six souls. The oil was common paraffin, such as is usually burnt in lamps. It was declared on the consigment note to the company as liable to ignite at 135 degrees. The only additional names of sufferers ascertained up to this moment are Mr. Berwick, a judge of the Irish Bankruptcy Court, [a little girl was also travelling under his escort,] and Mr. Owen, an organist, of Dublin. All the luggage of the Chester passengers has been destroyed, and thus there does not exist even this means of identifying the travellers."

A gentleman connected with a large mercantile house in Liverpool was at Llandulas at the time of the accident. He saw the three trucks start down the incline into the cutting, and immediately afterwards the limited mail came up. From subsequent inquiries he was told that the driver did not see the approaching waggons until they were about 100 yards off. He was then unable to do more than shut off steam and reverse the engine. He then jumped off, and the collision immediately occurred. The engine was forced off the line on the left-hand side, and the tender was thrown across the line. The first passenger carriage was shot up alongside the tender, and the second alongside the engine. The force of the collision had scattered the barrels from the trucks, and being burst by the force of the shock, the liquid was splashed upon the carriages and about the line. It was ignited by the live coals from the engine, and threw up a flame which caught the splashed panels of the carriages, and the whole mass was immediately in a blaze. The passengers from the other carriages were got out in safety, and up to that time it was not thought that any one was in danger, and that no one was in the two first carriages. One lady wished to go to the assistance of the passengers in those carriages, and was told by the sub-guard that they were empty when they left Chester, and it was not until the carriages had been consumed by the intense fire, and the bodies became exposed, that the contrary was found to be, unhappily, the case.

Even if the fact had been known it would have been impossible to have done anything for them, as they were enveloped in flames in an instant. Their deaths must have been instantaneous, as not a cry or shriek was heard. When the flames had burnt themselves out, they went to the *débris*, and in the remains of one carriage they saw the body of a lady sitting up with the arms stretched out as it towards the door. The whole of the flesh was burnt off the face, and there was, nothing but the charred skull remaining.

He saw the cindered remains of sixteen bodies removed, and there must have been still more in the *débris*. The body of the lady thus described was believed to be that of Lady Farnham.

The Dublin "Freeman" gives the following as the latest particulars in reference to the railway collision:—The Right Hon. Baron Deasy, for whose safety so much well founded fears were entertained for the past two days, arrived by the mail steamer this morning from Holyhead. It was rumored that Baron Deasy had been in the train at the time of the accident at Abergele, and most serious reasons existed for believing that that gentleman was amongst the killed. All the unclaimed luggage which had been brought to the London and North-western ticket-office on night of the accident has been sent back to Chester. The applications for information regarding the missing passengers are most numerous. Mr. Sheridan, the commercial traveller of the firm of Messrs. O'Shoughnessy and Kickham, who was reported to have been killed, arrived safely this morning. Up to the present no further information has reached us with regard to Judge Berwick and his sister, and we fear there can be no well-founded reason for doubting that the lady and gentleman have been killed. It is hoped that some information will be received from the scene of the disaster by the mail steamer this evening. His Excellency the Lord-lieutenant, her Grace the Duchess of Abercorn, the Marquis of Hamilton, Lord George and the Ladies Georgina, Albertha, and Maude Hamilton, proceeded by the ordinary mail train to-day from the Amiens-street Terminus of the Drogheda Railway, 'en route' for Baronscourt, where their Excellencies will sojourn for some weeks. The following is from the third edition of the 'Irish Times':—"On making inquiry at the residence of Judge Berwick this day, we learned that no communication whatever has been received from him, and it is believed that both himself, his sister, and Miss Simms, of Ballybeg, who travelled with him, together with Miss Berwick's maid, have all perished in the cata strophe. Mr. Edward Berwick, President of the Queen's College, Galway, and brother of Judge Berwick, left town last night for the scene of the accident, and to make inquiries, and he has telegraphed to-day, to the effect that he could find no trace of his brother. There still remains unclaimed luggage, which has been forwarded to Chester, belonging to the following:—The Rev. Sir Nicholas and Lady Chinnery; Mr. Parkinson, whose luggage bears the initials, W. P.; Mr. Stern, Mr. Broderick, Miss Lankinton, Mr. and Mrs. Copeland, and Mr. Whitemore Scowell."

RUMOURED ATTEMPT ON THE LIFE OF THE QUEEN.

Paris, Aug. 21.

The *Gazette de France* of this evening publishes a letter from Lucerne, stating that a Fenian had arrived with the intention of making an attempt upon the life of the Queen. The letter adds, he was arrested on Wednesday, in front of the Swiss Hotel, by two English police agents. This incident has caused great excitement among the English residents here, and it is believed that the man did not come alone. It is said that her Majesty was informed of the plan to assassinate her before her departure from England.

The second edition of the *John Bull* is authorised to state that no information whatever has reached either the Home or Foreign Office as to the alleged arrest of a Fenian at Lucerne, though there is daily telegraphic communication. Indeed, a telegram from Lucerne was received at the Treasury on the 22nd on another subject.

DEATH OF THADDEUS STEVENS.

A telegram from New York announces the death of Mr. Thaddeus Stevens, an active influential politician of the United States. He was born in Caledonia, County Vermont, on the 4th of April, 1793, and graduated at Dartmouth College in 1814, whence he removed to Pennsylvania, where he studied law, and was called to the Bar in 1816. He was first elected to the state legislature in 1833, was returned as a member of the convention to revise the state constitution in 1836, and was elected as a representative from Pennsylvania to the 31st Congress in 1848. Mr. Stevens had served as chairman of the ways and means, and was a delegate to the Baltimore Convention in 1864.

LATEST FROM CORRIENTES.

[OUR SPECIAL CORRESPONDENT.]

Goya, September 24, 1868.

On the 19th inst. General E. Mitre, escorted by the 3d Regiment of Cavalry, proceeded to the Corrientes River, near the town of Mercedes, to hold an interview with ex-Governor Lopez, who has assumed the command in chief of Caceres' army.

The conference took place on Sunday, 20th, in a canoe in the middle of the river. Among the persons who accompanied Lopez, was a son of Caceres.

After half an hour's conference between Mitre and Lopez, they separated without, I think, arriving at any result, because shortly afterwards Mitre was heard to say that Lopez refuses to recognise the authority of the National Government. When Lopez disembarked on the other side of the river she was joined by an individual with two adjutants and eight soldiers, whom we all know to have been none other but Caceres.

Yesterday afternoon General Mitre returned here with the cavalry. On the morning of the same day when on the road he I heard despatched Col. Vidal with twelve soldiers on a mission to the army of Ocampos. Before leaving the place of the conference the General sent a note to Lopez, but I believe the answer to it was not satisfactory, and therefore I think we shall begin the civil war. The General and the other officers whose families are here, will send them on Sunday to B. Ayres, and we expect to receive orders to march on Monday. A civil war is a melancholy thing, but we are soldiers and must obey in silence.

SAYERMANN.

COMMERCIAL BANK OF SANTA FE IN LIQUIDATION.

Rosario, September 26.

The closing of this Bank took place on the morning of the 24th inst., and a great panic was caused thereby in commercial circles. When anything of sufficient importance occurs, *La Capital*, the organ of the Provincial Government, issues a bulletin, which, as a rule, is copied in the next day's impression; in this instance it was not copied, and as the bulletin in question, in attempting to reassure the public tries to throw the failure of Cabal's Bank on the London and R. P. Bank, which is wholly blameless in the matter, it may be supposed *La Capital* saw, though too late, the folly of its statements. The only notice of this bank difficulty in the next issue of the periodical is contained in a six-line paragraph, which says they published an anticipation of this number, which refers to data taken from the actuary who acts in the settlement of the deeds between Don Mariano Cabal and the London and River Plate Bank, the creditor in execution. The bulletin referred to says in one part—"The London and R. P. Bank, which had a running account with the Commercial Bank, demanded yesterday certain 'concessions' of an 'exorbitant' and 'inadmissible' nature, the compliance with which Sr. Cabal found dishonorable to the interests of the concern." In a later part of same bulletin it is said—"Sr. Cabal prefers closing the bank to 'absurd impositions,' and acts with highmindedness and dignity."

The facts of the case are:—The L. and R. P. Bank gave Cabal's Bank a credit, which was slightly overdrawn in anticipation of the Army bills; Cabal then wanted more money—the Manager of the bank, Mr. Weldon, distinctly refused to assist him without security: this Cabal demurred to give, the result of which was that he could not fulfil his engagements. The closing of the Commercial was no fault of the L. and R. P. Bank, but merely the consequence of Cabal's want of foresight. So much for the 'exorbitant and inadmissible concessions dishonorable' to the Commercial Bank, and Cabal's preference to close the Bank rather than to consent to 'absurd impositions.'

La Capital, on the 26th inst., in an article, headed "The Two-edged Sword," says it does not perfectly know the reason and necessity that has impelled the Manager of the L. & R. P. Bank to act with the severity and and strictness he has, but begs permission to demonstrate that the result of the operation will react on the bank which has injured the other. Instead of demonstration, the article indulges in the most chimerical suppositions, by which, considering the wealth, influence, and business of the L. and R. P. Bank, very few, if any will be influenced. Beyond putting the public in cognizance of the actual state of the case, no defence of the L. and River Plate Bank, is intended or needed.

Both native papers of the town say that Cabal will pay his liabilities in full. It is very unfortunate that Cabal's journal, in order to quiet the public mind, attacks the L. and River Plate Bank; to that institution the attack is harmless, but not likely to act beneficially for the interests of the Bank in liquidation.

It is here believed that Cabal is solvent, that he will pay everybody, and remain with a large fortune afterwards—a belief which the course adopted by *La Capital* cannot tend to strengthen.

SPHINX.

PUBLIC LANDS IN BRAGADO.

BENEFICIAL LAWS.

The Provincial Senate has sanctioned, in its last session, a project of law which will be well received by the holders of Government lands in the Bragado. The egotistical pretentions of those who desire to monopolise those lands in prejudice to the public have been thus destroyed.

It is, at least, a good sign that such questions of internal economy should find a place in the dictates of our legislators, to the exclusion of the old course. One of the grandest measures, the most lasting memento of Sr. Alsina's administration must be the present law, which has for ever put an end to the monopoly of the large landed proprietors, throwing open our lands on equally advantageous terms to the poorest settlers. The projected law in question will particularly apply to the lands of Bragado, under the head of the law of October 1857, which has proved so favourable to the partido of Chivilcoy. Bearing in mind the great desire which the settlers of Bragado have manifested for the purchase of these lands, we can hope that the Chamber of Deputies will not hesitate in sanctioning the projected law.

The Senate and Chamber of Deputies.

Art. 1. All the tenants or sub-tenants holding a pastoral or agricultural establishment on the public lands of the Department of Bragado, can avail themselves of the right of purchase accorded them by law, dated January 11, 1867.

2d. Assigns the first period of ninety days, within which to present their claim of purchase.

3d. The price shall be one hundred and fifty thousand dollars per square league, with the same terms and conditions established in the aforesaid law of January 11, 1867.

4th. All who do not fulfil the stipulations of purchase, shall lose the right, and the lands shall be divided into Chacras and let.

5th. Let such lands as are mentioned in the preceding article, be declared wheat-growing districts.

6th. The sale of these lands must be conducted with due regard to the disposition of the 4th of October, 1857, law, which was observed in Chivilcoy, excepting only the price which is determined in art. 3 of the present law.

7th. Let this be communicated, &c.

TERRIBLE STORM IN LOBERIA.

FULL DETAILS.

Yesterday an Argentine merchant favored us with a letter which he received from his estancia in Chapalmalan, giving an account of the most terrible storm ever experienced in those remote parts:—

"Sir—I write to tell you of the most terrible storm ever known in this district. The rain commenced on the 8th inst., and has lasted since. At noon on the 8th the wind got up, and it blew a fearful gale. All the horned cattle and mares have been driven by the storm from their 'querencias.' As regards the sheep the loss has not been so great, but the 'arroyos' are all impassable, so much flooded. I have just returned from the puestos, and find that at a puesto without a corral half the flock has been lost. The shepherd watched them all night, but he found it impossible to keep the sheep together. After much search, I found the sheep about two leagues off, close to a river. I cannot say how many sheep are lost. At another puesto I found the rancho blown down. The puestero, in trying to cross the arroyo, was carried off by the current, but most miraculously succeeded in swimming across.

"To-day is the 10th, and the storm still continues. The flocks are all mixed, but as the lambs are marked the loss will not be so great, although, owing to the severity of the season, the lambs, for the most part, were lost in the winter.

"Here we are on the 11th, and the storm still rages—wind and rain; the wind has changed to the south—but such a storm! The cattle have been completely swept off by the storm. To-day the flocks are all right; when the storm dies off the cattle will return—perhaps to-morrow, Saturday, we may see the sun again; we require sunshine to dry the camps a little.

"12th.—The storm has held out until to-day at 7 a.m.: the weather looks clearing up, and we have had no further losses to-day; I received a troop of cattle the other day, but for want of a corral they have all scattered. The ruin which this storm has caused amongst ranchos, &c., is incalculable; here there are no less than 3 blown down.

"The storm is over, but the weather is still unsettled; the cattle are returning to their querencias; 4 more ranchos have tumbled on this place: the Arroyo Bruscas has risen and invaded even the houses; people who have lived there for over 20 years never recollect such a flood."

EDITOR'S TABLE.

The Aunis came into port early yesterday morning, bringing dates to the 24th from London and Paris. A summary of the news will be found in another column. The dreadful catastrophe caused by the accident to the Irish mail train between Chester and Holyhead, which caused so many victims, and among them several well known members of the aristocracy, has thrown a gloom over the whole of England and Ireland. The English papers are full of electioneering intelligence, meetings and addresses, and speculations on the approaching general election engross everybody's thoughts.

Persons are never wanting who seem to take a special delight in anticipating coming evils, and of this class are those that croak dismal forebodings as to the tranquillity of the Argentine Republic being likely to be seriously disturbed on account of the Capital question, saying that the old animosities between the provinces and Buenos Ayres, are likely to be revived with tenfold fury. We cannot share these apprehensions, and although we are not blind to the difficulties that surround the question, we think that the new Administration, by taking up the subject in earnest good faith, will arrive at a solution that will conciliate all interests.

We are sorry to learn that cases of high-way robbery are of frequent occurrence on the Belgrano road About a week ago a young Englishman started alone on horseback from Watson's about 9 at night,—he was stopped in the Cañita road by a party armed with a long knife, who threatened to stick it into him unless he gave up his money; the Englishman was not strong in spanish, and not being able to argue the matter, gave up all he possessed, about nine Sovs., and after his unwelcome acquaintance had made sure by feeling his pockets that he had no more, he was allowed to proceed on his way. Another night three young gentlemen coming into town late in the eveving, were accosted by an individual who threw a large lump of mud at the head of one of them; on the latter drawing out a revolver the former disappeared, and the darkness of the night saved him from pursuit.

Another Bank failure! Yesterday the news of the closing of the doors of the Commercial Bank of Santa-Fé became current through the city, and much anxiety existed to know the exact amount of assets of the Bank. We publish in another column all the details as yet received. We are well pleased to note that the Rosario people have full confidence in the perfect solvency of Governor Cabal, whose Bank, it is thought, but temporarily suspends. Still this bank-collapse in Rosario shows that we have not yet done with our bank troubles; and people will admit now that Mr. Frias was right in his motion before Congress to name a committee to inspect all the banks in this Republic.

The most important business of the day yesterday was the great sale of Sr. Lezama's sheep, numbering about seventy-five thousand. We understand that they were sold to Mr. Barker the well-known broker, in a round sum, who afterwards sold them to Dr. Saturnino Uzue at the rate of twelve paper dollars a-head. This is the largest sale of sheep ever effected in this country. We regard it as a sign of the times to see a man like Gregorio Lezama, selling off all his sheep. This native capitalist has estancias in every direction, and, after the Anchoronas, as the largest estancie ro in the country. We believe Mr. Lezama also purposes selling a part if, not all of his lands, some of the finest and best in the River Plate.

The news from the country districts which is now coming to hand, gives a gloomy picture of the recent storms outside, we hear of estancieros who, during the winter, have lost very heavily in the department of Pergamino: the cattle from Santa Fé did great injury, leaving the camp quite bare: one estanciero near the "Dulce" has lost over 30,000 sheep.

Most of the estancieros are giving up their carriages, owing to the monstrous tax charged, coaches in the camp have to pay the same as those in town, which is very unjust.

All the estancieros who send troops of capones and sheep to town are well satisfied: the price arranged is from 28 to 30 nett. Farmers would do well to follow this plan instead of selling outside to troperos.

All the Chivilcoy wheat will be cut down this year by reaping machines, we understand that these machines are at present in the greatest demand, some parties have sent orders to the State for a consignment of those useful machines, they are much required; the wheat crop this year will astonish the country, if the weather proves favourable.

Yesterday there was a great house auction in town, the family house of the Haedo's Corner, of Calle San Martin and Piedad, well known to the English public; this house has historic recollections, being one of the oldest in the city, and tradition says that when the English took the city, a large box of ounces was buried in the back patio, the site is one of the most valuable in this city, and every way suitable for the much talked of new Bolsa.

We learn that Messrs. Pacheco have made a contract to deliver 4,000 capones on their estancia by the 1st of October,—the price is $30. each.

The San Fernando wharf Co. is progressing. All the timber is in port, the machinery has arrived in Rio and will be here by the first Liverpool Steamer; the rails and other iron work are now embarking in England, we feel quite confident that within 6 months the wharf will be ready for the reception of vessels and their cargoes.

Respecting the new Ministry, we learn that there are still two vacancies to be filled, Sr. Castro and Dr. Gorostiago having declined the nominations. Dr. Gorostiago, as Judge of the Supreme Federal Court, cannot be spared. Although one of the first financiers of the country, his retirement from the Bench would be a loss to the country. Sr. Castro is head and ears in railway and water-work affairs. We cannot afford to lose so able a man. As Governor, he will still have exclusive control over those departments. We are well pleased, therefore, that he has resigned the War portfolio.

Our readers will be glad to hear that at last the Municipality is determined to supply the city with sewerage. Speaking with an influential member of the present board the other day, Sr. M———, distinctly said that the "Standard" might rest assured that the Municipality is now fully determined, cost what it may, to at once contract for sewerage in the streets. The Legislature has conferred the power, and the board sees the actual necessity of at once setting about the work; this we regard as good news for us all. The Municipality should at once call for bids, make a contract with a private company, and then within two years the city will be thoroughly drained. As at present situated, we have no way to carry off the refuse waters, when the fountains and street cocks are put up. Mr. Coghlan, in a letter to us, dated 25th inst., says:—"The local works, reservoirs, filters, &c., are nearly finished, the only works of importance to be completed being the engine building; of which the first stone was laid the other day, and the erection of the machinery, which is on the ground; a large stock of pipes has arrived which will be laid immediately, and the remainder are on the way out; so that I believe the Commissioners will be able to realize their original expectation, that the whole system may come into operation in December." We may, therefore, look forward to water in the streets this summer. We believe there are a few watering-carts in town; if not, they can be ordered, and, meanwhile, the vigilantes might, in the hot weather, be admirably employed in watering the Plaza Victoria by means of capacious watering-pots.

The Northern Railway, as well a the public, begin now to understand the importance of this work and the former is ready to lend all its assistance towards the increased transportation that may come.

The Chilian steamer Pacific arrived yesterday at an early hour in Montevideo, but until a late hour no special news arrived: there is much anxiety to hear about some vessels, which are now out several months, from Valparaiso, bound to the Plate.

Respecting the latest news from the seat of war, we learn that the Brazilians are within one league from Villeta. The Argentines have been brought to a stand-still, owing to the fact that their military train has got stuck in the mud at some place near Villa Franca. Respecting the iron-clad fleet, there is nothing new. We have no advice as yet as to the vessels having passed Angostura. The pith of the news is, however, that Lopez is still in Villeta, and that the allies will next week occupy Asuncion; traders are already on the "qui vive," and the Corrientino dealers are all preparing to ship goods to Asuncion, but vessels are scarce.

The Mercedes Bridge is still broken down, and carts, etc., have to make a turn of thirty miles to be able to cross the river. What a shame! The Municipality, it seems, has no money to pay for the repairs of the bridge.

The rains, &c., have put back the Rosario Telegraph line seriously; it is probable that the line will not be finished for six months.

A SPIRITUALIST MARRIAGE.

At Akron, Ohio, a few days ago two persons of spiritual faith married themselves with a little aid from the mayor, by repeating the following formula:—"In the presence of our spirit and earth friends I take Alecta A. Sandford, whom I hold by the right hand, to be my lawful wife, hoping, by kindness and affection, to be to her a faithful and loving husband while in the earth form." The lady then replied: "In the presence of our spirit and earth friends I take Abel Underwood, whom I hold by the right hand, to be my lawful husband, hoping, by kindness and affection, to be to him a loving and faithful wife while in the earth form." The mayor then said:—"Having pledged your marital vows in the presence of these witnesses and of the world, I now, in the name and by the authority of the state of Ohio, pronounce you husband and wife." The Beacon says they would have no form of ceremony in which the word death occurred.—*New York paper.*

HEAT versus WIGS.

One startling effect of the heat in England has been that several Judges, alleging that there are limits to human endurance, have temporarily abandoned wigs, permitting the Bar to acquiesce in so fearful an outrage on the British Constitution. But a striking proof of the revolutionary tendency of the age in England is to be found in the fact that not only do the Radical journals cry out for the permanent abolition of wigs, but a Liberal Ex-Solicitor-General has positively joined in the cry. The Tory Press scouts the proposition as all but sacrilegious, and evidently regrets the weak concession to the weather which resulted in a single case being tried by a Judge without a wig. The Tories are evidently getting alarmed. Their opponents are attacking some venerable institution every day. First the Irish Church—now the forensic wig. There is hard work in store for the defenders of the "whatever is, is right" principle.

ON CHANGE.

September 28, 1868.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	49¾

Bonds took another turn to-day: outsiders are selling. The application to Congress for permission to emit 600,000, has frightened the holders. Money is beginning to be felt tight, and some of the Bonds hypothecated are now coming on the Bolsa. There are no buyers at 48 for the end of October, ex-dividend, and in the liquidation-room Bonds were offered for the end of this month at 49½; no buyers.

The news from Rosario of the Commercial Bank having gone into liquidation, caused a very bad feeling on the Bolsa. As yet we have no advices from Corrientes, but it is feared that the bank there will also suspend. Most parties, however, regard this Cabal business as but a temporary suspension, and believe that the bank will shortly go on again.

The cash sales of Bonds amounted to 32,000, opening at 50¼, and closing at 49¾. In the liquidation prices fell off still further.

For Wednesday 80,000, at 49¾.

Total sales, 112,000.

The total transactions for the end of the month are over twelve millions, and the losses extremely severe. It is calculated that the total amount of difference to be paid is about 120,000 patacons. The bulls are the chief losers.

The sale of Haido's house in Calle San Martin attracted crowds. The highest offer made was two millions five hundred and twenty thousand dollars. This offer, it was generally said, was made by Sr. Lezica, but as the sale was conditioned on the approval of the owner, who could not be found after the auction, the sale amounted to nothing.

A new Joint Stock Company has been started, capital, one million dollars, for the purpose of establishing a Hippodrome at Palermo.

The news from Corrientes is not relished. Caseres not only holds out but it appears is recruiting. Advices from the interior provinces are said to be equally unsatisfactory.

Yesterday there were two sales of city property, a corralon in Calle Chacabuco, No. 336, 17 by 72, for $165,000. Dn. Martin Alzago, purchaser.

House Calle Chacabuco, No. 340 and 342, 13 varas by 72 varas, for $152,500,

The Galileo clears this evening. She takes fifteen thousand pounds sterling in gold.

Up to a late hour no Chiliau advices had been received, per Pacific.

Our special reporter at the South Plaza reports few transactions.

At the Boca one consignee of this Plaza sold a large cargo of Indian corn from Entre Rios, from General Urquiza's establishment at $110 fan.

One lot camp dry hides, $120 pes.

Grease, $34 ar.

1650 capones, in three treupes at $33 and $35.

THE PAIN-KILLER ABROAD.

The following correspondence will show something of the estimation in which Perry Davis, Pain Killer is held on the shores of the Mediterranean. It is not surprising that a medicine that receives such testimonials as this from abroad, should find well sustained and increasing appreciation at home.

U. S. CONSULATE.
Tunis, December 27, 1865.

To the Proprietors of Davis' Pain Killer, Prov., R. I.,

Gentlemen—The enclosed has just been received from my friend Tulin, late Consul General of Norway and Sweden and of Prussia in this place. No comment is needed.

Truly Yours.
AMOS PERRY.

Northampton, March 11, 1867.

Dear Sirs,—I wish to add to your numerous testimonials. Last September, while at work cutting sole-leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laid the bone bare. I supposed I had ruined my thumb forever; but I thought of your Pain Killer, as I had often heard of its healing qualities. I went about a half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a waxed thread around the wound, and applied the Pain Killer, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen any thing for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healer.

Yours truly,
R. T. CLAFLIN.

SARSAPARILLIAN,

AND ITS
POWERFUL CURATIVE ASSOCIATES.
Prepared under a Newly-Discovered Process for Extracting the Curative Properties from Vegetable Substances, enters into the Composition of
DR. RADWAY'S
RENOVATING
RESOLVENT.

A NEW PRINCIPLE DISCOVERED.

One Bottle of Resolvent is better than ten large bottles of the advertised Sarsaparillas, or direct Diuretic Remedies.

Physicians wonder at the extraordinary power of Radway's Renovating Resolvent in curing the worst forms of Scrofulous, Syphiloid, Chronic Skin Diseases, and its marvellous power in resolving calculous concretions, affording immediate relief and consequent cure of Diseases of the Kidney, Bladder, Liver, Lungs, Pancreas, Spleen. Its rapid influence in the cure of Diabetes, Incontinence or scanty, turbid, albuminous, cloudy urine; its almost instant efficacy in stopping itching and painful discharge of urine, and its singular power in curing discharges from the Uterus and Urethra, Leucorrhœa, Bloody Urine, and other unhealthy and weakening discharges; and enquire wherein the Sarsaparillian used in the Renovating Resolvent differs from ordinary Sarsaparilla. Sarsaparillian is the only principle in Sarsaparilla that possesses curative properties; all other parts of the root are inert and useless. One ounce of the extract obtained under Dr. Radway's new process for extracting the curative properties from vegetable substances, contains more of the true principle of cure than 20lbs. of the ordinary roots.

Sarsaparillian is only one of the ingredients that forms this truly wonderful medicine; and it is the only compensating remedy that communicates its purifying, cleansing, and reinvigorating properties through the Blood, Sweat, Urine, and other secretions, securing a harmonious functional action of every depraved organ and gland in the system. If the blood is corrupt, the Resolvent will make it pure. If the lungs are ulcerated and sore, secreting thick phlegm and purulent matter, the Resolvent will loosen this deposit and repair the wasting lung with sound and healthy materials. If the skin is covered with pimples, spots, pustules, sores, ulcers, &c., the Resolvent will quickly remove these annoyances. If mercury is deposited in the bones and has accumulated in the system, the Resolvent will drive it out. If the throat or bronchial glands are ulcerated, the Resolvent will cure these signs of an early waste. Direct remedies, possessing only exclusive properties, are hurtful, as they increase the functional secretions of one organ by suspending the constituent secretions of others; hence, a compensating remedy like the Resolvent is the only means of a permanent cure.

Bear in mind that every drop of blood impregnated with the Resolvent and absorbed to supply the waste of the body, will make pure, sound, and healthy flesh and fibre. The first dose that is taken commences its work of purification and increasing the appetite and flesh.

Radway's Ready Relief
IN ITS SIMPLICITY AND GRANDEUR.

R. R. R.

We will first consider in its capacity as a specialty our far-famed remedy Radway's Ready Relief, symbolized throughout the civilised world under the significant alliteration R. R. R. This remedy is happily possessed of properties that give immediate and positive proof of its excellence, that the most sceptical can feel its power in a few seconds, especially where the sufferer is the victim of excruciating pain. It is not a question with this remedy of time it takes to remove the perception or sensation of pain, or of the cost; for the moment it is applied to the part of the body where pain exists the patient is relieved. And if the pain is from an established disease, a cure will soon follow.

The Ready Relief is a vegetable remedy. It is pure, safe, and innocent. It is quicker in subduing pain and making the patient comfortable than Morphine, Chloroform, Ether, Opium, or any other agent. Its simplicity of application renders it a valuable household necessity, and its usefulness covers the entire range of family accidents that are liable to occur at any moment. The Ready Relief should be kept in every house, for if any injury or accident occurs to a child or grown person, its use will prove of immediate service. It matters not what the difficulty may be. Burn, Scald, Fall, Bruise, Cut, Wound, Poison, Sprain, Strains, Pain, Ache, Cough, Cold, Croup, and a hundred other annoyances that are constantly taking place in every family, this Ready Relief will, in a few minutes, prove its value. If suddenly seized with sickness, and you have no faith in medicines, but wish for a doctor, the Ready Relief will suspend or check the progress of the disease at once, and, in ninety times out of one hundred, cure the patient before the doctor arrives. It can never do harm; but will always do good. Its grand power is the prevention and cure of pestilential and contagious diseases.

It is in diseases were immediate and absolute assistance and relief is required wherein this remedy proves its superior, and we might say, supernatural Power in saving life, and promoting health.

In cases where Epidemic Diseases, Pestilence, Small Pox, Fevers, &c., exist, this remedy proves the potent power of a disinfectant, neutralizer and cure. No one that uses the Ready Relief when Asiatic Cholera, Yellow Fever, Typhoid Fever, Small Pox, Diptheria, &c., prevail in a community, will be seized with these diseases; and if seized when using it, will be cured if the directions are followed. Simple as this remedy is, it possesses the elements of cure of the most violent, painful, and fatal diseases that scourge the earth.

The properties of the Ready Relief are counter-irritant, rubefacient, anti-spasmodic, disinfectant, antiseptic, diffusive, stimulant, tonic, nervine, anodyne, anti-acid.

Its use in Asiatic Cholera, either as preventive or cure, is of more value to the world than all other discoveries in vogue.

It instantly secures rest, stops the Cramps and Spasms, and holds the constituents of the blood together, equalising the circulation, and preventing the separation of the watery constituents from the other properties of the blood, and arrests Vomiting and Purging. In Yellow Fever it is likewise all potent, and, with the assistance of Radway's Pills, will protect those exposed from attacks, and cure them that may be seized.

In Fever and Ague, Typhoid, Bilious, Scarlet and other Fevers, its use will always insure a cure.

In Rheumatism, Neuralgia, Gout, Tic Doloreux, Sore Throat, Diptheria, Influenza, in all cases of inflammation, the Ready Relief, assisted when required with its Resolvent and Pills, will surely effect a cure.

HROAT, CHEST, AND LUNGS

The true Mexican Anacahuita, from which our Pectoral is made, is a remedy for Pulmonary Diseases, which has been known and fully tested in that country for many generations. The native Indian tribes were probably the discoverers of its wonderful medicinal virtues, as it is among them where we first find it in use; later we find it prescribed by the leading College of Physicians in Berlin, and much prized by them as a safe and reliable remedy for some of the worst forms of Pulmonary Affections. Our own experience since we first introduced our Pectoral of Anacahuita, now over ten years ago, has been of the most satisfactory and encouraging nature. From Cuba, Mexico, West Indies, Brazil, Buenos Ayres, Chile, Peru, Ecuador, New Granada, Venezuela, and Central America, we have many letters and certificates of cures effected by its use, especially in such diseases as

Consumption, Coughs, Asthma, Colds,
Croup, Bronchitis, Hoarseness,
Pleurisy, Sore Throat,
Hectic Fever,
and
Difficult Breathing.

We have combined in our Pectoral various other valuable medicinal herbs, which we find makes the action of the Anacahuita more speedy and reliable; and we also recommend the use of our Pure, Sweet, Cod Liver Oil in conjunction with the Pectoral. Where these two great remedies are faithfully used we are almost justified in guaranteeing a Complete Cure in any of the above diseases, except in Confirmed Consumption, and even in it the patient's life may be prolonged for many years.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other trivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

SARATOGA "A" SPRING WATER

THE SARATOGA "A" SPRING WATER is probably the most effective Mineral Water found on either Continent. It will be observed that it has Ten per Cent. greater Mineral properties than the celebrated Congress Spring, four times that of Baden Baden of Austria, five times that of Aix la Chapelle in Prussia, twice that of Vichy in France, nearly three times greater than the renowned Seltzer of Germany, and equally over the Spas of Bath, England, and Kissengen in Bavaria.

ANALYSIS OF THE SARATOGA "A" SPRING WATER, BY JULIUS G. POHLE' M.D., SURVIVING PARTNER OF JAMES R. CHILTON & POHLE.

The value of Mineral Waters has been prized and acknowledged by Medical Men since the earliest civilisation. A celebrated authority says—"The virtues of Mineral Waters have been best shown in the treatment of obscure and chronic diseases In many instances persons have been restored to health, or greatly relieved by, Mineral Waters, where other remedies have failed. The reason, no doubt, is that such Waters must contain compounds not yet known to Chemistry or Pharmacy."

USES.

The reputation of this Water is based upon its effects in Diseases of the Stomach, Liver, Bowels, Kidneys, and Spleen, and acts with wonderful benefit in cases of Chronic Dyspepsia, Constipation, Gravel, Gout, Scrofula, Cutaneous Affections, General Lethargy, Soreness, and Prostration of the System.
